

STEELWEAVE[®] METAL MESH GRILLE

Models EAG10C, EAG10V, EAG10S

SECURITY AT ITS FINEST

Protecting your bar is absolutely crucial to maintain a successful business. Whether you are trying to protect the alcohol behind the bar during business hours or the entire bar after closing, the SteelWeave Metal Mesh Grille is ideal for your application. Just think of the time saved by not having to move alcohol to be locked up nightly - the SteelWeave Grille rolls down and the alcohol is secured in place. It also provides a unique element that complements and enhances any bar's design while providing security.

ELEGANT AESTHETICS

Made of a woven type 316 stainless steel mesh material, it exudes elegance while still offering visibility of the products you are selling when in the closed position. When in the open position, it integrates into the bar area nearly invisible to patrons.

PROTECT YOUR BAR WHILE ADDING AN ELEMENT OF DESIGN
