

HEAVY EQUIPMENT AND STORAGE SOLUTIONS

THERMISER® SERIES AND EXTREME™ SERIES DOORS

Have confidence in knowing that your heavy equipment is protected. Embodying our century-long legacy of problem-solving and innovation, our selection of insulated and high-performance doors are available in countless performance and style options. Your only limit is your imagination.

RELIABLE CLIMATE CONTROL

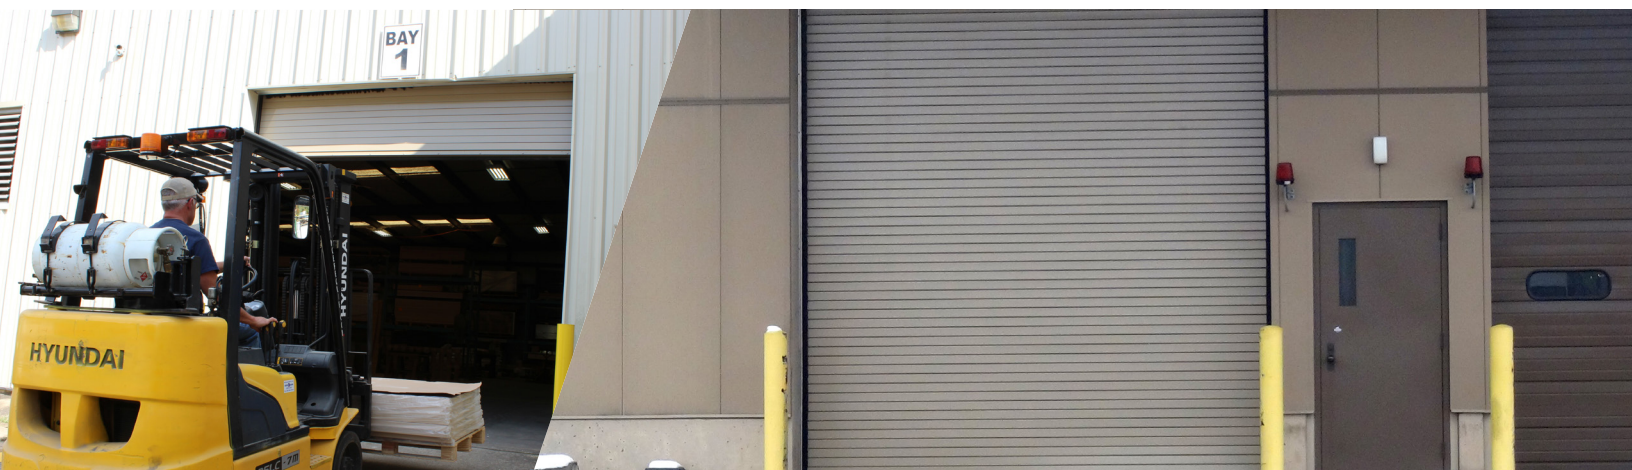

Efficient temperature control creates a barrier around your equipment. Our Thermiser® and Thermiser Max® doors lead the industry, offering advanced solutions for reducing air transference and maintaining an ideal interior climate. Their foam-in-place insulation ups your R-value and reduces sound transmission, helping you maintain a comfortable and hazard-free environment. These doors store compactly, require little to no maintenance, and deliver a low life cycle cost.

GO EXTREME

Discover the ultimate combination of speed, precision, and endurance. Our Extreme 300 Series and 1024 high performance doors are crafted to keep pace with your storage facility. With opening speeds 3Xs faster, these doors offer superior performance over standard models. Extreme Series doors are supported by our warranties, reflecting confidence in our durable designs.
