

# VISIONAIRE<sup>®</sup> MICROCOIL<sup>®</sup> GRILLE

## COMPACT FIT FOR STOREFRONTS

Our Visionaire MicroCoil Grille is a compact and quiet option for applications with a tight fit such as city storefronts and other retail areas that can't be drastically modified. It boasts nearly 40% less headroom than any other standard grille in the industry. The spacing between the links offers enhanced safety, airflow, and merchandise visibility where they're needed most.

## AESTHETICALLY PLEASING

Visionaire MicroCoil is a space-saving security closure that delivers in the looks department. The grille curtain features 304 stainless steel, easily replaceable links, which nest on top of one another on closing and require as little as 15.5" of headroom. With a lifespan of up to 50K cycles, Visionaire MicroCoil also offers design flexibility with its brick or straight patterns in aluminum or stainless steel finishes. Available with motor or manual operation options, Visionaire MicroCoil is also lockable, offering long-term, on-demand security for your retail space.

## LESS HEADROOM, MORE SPACE

Standard rolling grille = 24"  
required headroom.

Visionaire MicroCoil = as little as 15.5"  
required headroom.
