

COUNTER DOORS AND SECURITY GRILLES

ELEVATED SECURITY

These custom-designed doors and grilles control access to and enhance security for medication storage units. Security grilles combine ventilation and visibility in one convenient package. Counter doors are made to be strong and sturdy, making them an excellent choice for outfitting smaller openings.

SMALL BUT MIGHTY

Counter doors are sleek, stylish, and secure. Made of steel, stainless steel, or aluminum, they roll up neatly into the wall opening when not in use. Rugged and low-maintenance, they can be customized with a variety of finishes and materials. Counter doors offer all of the strength and dependability you need to upgrade your pharmacy's security.

STRENGTH MEETS SOPHISTICATED DESIGN

Rolling grilles are a versatile security solution for pharmacies. They are made of solid aluminum rods and links that are woven into attractive designs for a contemporary feel. The grilles' innovative curtain rolls conveniently into a compact coil that can even fit above the wall opening, making them easy to store. Rolling grilles provide an extra layer of security for storage areas, hallways, and windows. They also provide visibility after hours, communicating the value of your pharmacy and products.

ADVANCED SECURITY FOR PEACE OF MIND
