

# RETAIL APPLICATIONS

ScreenGard™ Aluminum Aesthetic, Visionaire® MicroCoil® Grille, & StoreDefender® Door

## ScreenGard™ Aluminum Aesthetic

The Aluminum Aesthetic package is a brilliant option for ScreenGard™ Perforated Slat Doors. The package includes compact extruded aluminum guides ideal for areas with minimal sideroom and a closure plate that makes the door appear practically invisible when open. The ScreenGard Aluminum Aesthetic door can be easily mounted to tubes for a streamlined, easy to conceal look, in any retail environment.

## Visionaire® MicroCoil® Grille

The smartly-designed Visionaire® MicroCoil® Grille is compact, taking 40% less headroom than standard grilles. When this grille coils closed, its 304 stainless steel links nest tightly together, needing only 15.5 inches of headroom. The grille's quiet operation, dependable security, and low maintenance are excellent perks. Big aesthetics come in a small package with customizable curtain patterns and aluminum or stainless steel finish options.

## StoreDefender® Door

Tested to withstand 2,500 lbs. of force, this door is a storefront's first line of defense against riots. An 18 gauge curtain, 6" heavy-duty bottom bar, tamper-resistant fasteners, and continuous wind locks protect against tool, body force, and lifting attempts. Upgrade StoreDefender™ with an AlarmGard operating system and a battery backup for optimal security. This versatile door is available in all standard finishes and more than 180 powder coat colors, and custom graphics.

## DESIGN MATTERS

Choosing Cornell security grilles and doors means choosing more than strength and durability. It's an extensive lineup of stunning patterns and finishes that give your retail space a personality of its own. It's a range of products developed with safety and security in mind. The proper aesthetics create an open and welcoming environment. Reliable protection and beautiful designs are why our grilles and doors are a great fit for any retail application.

Discover a security grille that's right for your store.
