

SERVICE AND INSULATED DOORS

ALL-IN-ONE EXTERIOR DOOR SOLUTIONS

Rolling service doors are custom designed to your opening with performance, security, and design options. Thermiser® and Thermiser Max® doors provide climate control with state-of-the-art insulation technology.

EXCEPTIONAL IN EVERY WAY

Rolling service doors can be outfitted with a full range of wind load requirements, including Miami-Dade, Texas Department of Insurance, ANSI/DASMA-108, and operational wind load of up to 20 PSF. Roll up doors are available in a variety of designs and safety features to keep your warehouse running at peak efficiency.

SUSTAINABLE CLIMATE CONTROL

Thermiser and Thermiser Max doors feature insulation technology and a patented sealing system that defend your building against fluctuating temperatures and reduce sound transmission. Both doors meet ASHRAE® 90.12, IECC® 2021 and California's Title 24 air infiltration requirements with an independently tested value of less than 0.3 CFM/ft² and come with an optional maximum operational wind load of 20PSF. Thermiser Max comes with a Sound Transmission Class (STC) rating up to 32*, and safety features to keep your warehouse running at peak efficiency.

** All configurations are evaluated per ASTM E90, based on testing a complete, operable assembly.*

CREATE A COMFORTABLE, EFFICIENT ENVIRONMENT
