## WAREHOUSE SOLUTIONS

# **SERVICE AND INSULATED DOORS**

## **ALL-IN-ONE EXTERIOR DOOR SOLUTIONS**

Rolling service doors are custom designed to your opening with performance, security, and design options. Thermiser<sup>®</sup> and Thermiser Max<sup>®</sup> doors provide climate control with state-of-the-art insulation technology.

# **EXCEPTIONAL IN EVERY WAY**

Rolling service doors can be outfitted with a full range of wind load requirements, including Miami-Dade, Texas Department of Insurance, ANSI/DASMA-108, and operational wind load of up to 20 PSF. Roll up doors are available in a variety of designs and safety features to keep your warehouse running at peak efficiency.

## SUSTAINABLE CLIMATE CONTROL

Thermiser and Thermiser Max doors feature insulation technology and a patented sealing system that defend your building against fluctuating temperatures and reduce sound transmission. Both doors meet ASHRAE<sup>®</sup> 90.12, IECC<sup>®</sup> 2021 and California's Title 24 air infiltration requirements with an independently tested value of less than 0.3 CFM/ft2 and come with an optional maximum operational wind load of 20PSF. Thermiser Max comes with a Sound Transmission Class (STC) rating up to 32\*. and safety features to keep your warehouse running at peak efficiency.

\* All configurations are evaluated per ASTM E90, based on testing a complete, operable assembly.
