## NEMA 7/9 MOTOR OPERATOR

SHN79 / SGN79 Service Door Operator

## STANDARD FEATURES AND BENEFITS

- Whole product series are listed under UL1203 \& UL325 as a complete unit
- Protection for use in hazardous locations
- Intrinsically safe circuits allow for usage of a monitored sensing edge (vs a N79) and standard push-button station (vs a N79) and do not require explosion-proof conduit for install
- Class I, Division 1, Groups C \& D Class II, Division 1, Groups E, F, \& G
- Available for retrofit
- Sensing edges are provided as standard for primary entrapment protection
- Our NEMA 7/9 operators do not require additional explosion proof conduit for control station wiring that is required for other manufacturers of NEMA 7/9 operators

## STANDARD COMPONENTS

- Integrated explosion-proof control box
- Dual isolated circuit design
- Linear drive system
- Gear box and solenoid actuated brake
- Motor and control circuits are pre-wired in the control box
- Auxiliary chain hoist available in $1 / 2 \sim 2 \mathrm{HP}$

## MOTOR DIMENSIONS

SHN79 / SGN79 OPERATORS (ALL OPERATOR CONFIGURATIONS HAVE A FREQUENCY OF 50Hz / 60Hz)

| Model | SHN79-500 | SHN79-750 | SHN79-100 | SHN79-150 | SHN79-200 | SGN79-300 | SGN79-500 | SGN79-750 |
