- ▶ Close override if the entrapment protection device short circuits

OPTIONS

- ▶ Module for secondary monitored entrapment protection device

TECHNICAL SPECIFICATIONS

Power Supply.....120 V 60Hz
Duty.....5 - 10 cycles /hr

STANDARD COMPONENTS

AUTO-RESET THERMAL PROTECTION - Prevents Motor Burnout

ELECTRONIC LIMIT SWITCHES - Ease of setting limits through 3-button station at floor level

OPERATOR SAFETY FEATURE - Activating "Open", "Stop" or a remote transmitter button stops the movement of a closing door

PRE-WIRED FOR SENSING EDGE/SENSING DEVICES - A sensing edge, photo eyes or other detection devices can be easily connected. Standard one second time delay prior to reversing prevents damage to door and operator

STANDARD EXTERIOR RADIO-CONTROL TERMINAL - Provides for easy and fast connection of radio controls

Our Tube Motor is ideal for rolling counter doors, security grilles and light gauge service doors (22 & 24 gauge).
