

SMARTSYNC™ WIRELESS REMOTE

Wireless Remote Controller

WIRELESS CONTROL OF YOUR DOOR OR GRILLE

SmartSync™ Wireless Remote comes equipped with an anti-shock design for industrial handling. This heavy-duty remote is compatible with most motor-operated doors, grilles or counter doors.*

FEATURES

- ▶ Battery saving: screen shuts off after inactivity.
- ▶ Easy-to-read screen despite lighting conditions.
- ▶ Designed for durability, the specialized case protects the unit from damage due to drops.
- ▶ A built-in clip attaches to forklifts and other equipment for easy access.
- ▶ Remotes can be paired with the receiver from the floor—no scissor lift or ladder needed.
- ▶ Connect to up to 90 doors on a single remote—each door can be named using letters/numbers.
- ▶ Easy to duplicate the pairing content from one remote to another.

*Not compatible with NEMA 7/9 operators

SmartSync™ Wireless Remote requires a remote and receiver for operation. Photo eyes or a sensing edge are also required. This product is compatible with our SmartSync™ Wireless Safety Edge Kit and can be purchased with the remote and receiver. Or, the SmartSync Wireless remote can be purchased separately to be added to a SmartSync Wireless Safety Edge Kit.
